LIPID MAPS® Webinars

LIPID MAPS Webinar Series 8 is BACK ...

We are thrilled to announce our first speaker of series 8 is Janet Deane from the Cambridge Institute for Medical Research (CIMR).

This talk entitled “How Glycosphingolipids Modulate the Plasma Membrane Proteome Influencing Neuronal Activity” will cover how disruption of glycosphingolipid metabolism in neurons causes catastrophic loss of function.

LIPID MAPS News

Community Review: (Glyco)Sphingolipids

A draft manuscript titled “Update and Expansion of the LIPID MAPS Classification, Nomenclature and Shorthand Notation for Complex (Glyco)Sphingolipids” is now open for community review. The update surveys the complexity of the (glyco)sphingolipidome; including annotation of results from lipidomic analysis, a summary of metabolic pathways and other information that facilitates interpretation of research findings.

Given the manuscript covers a broad range of sphingolipid classes, pathways, and biological contexts, we value the expertise of the community and encourage you to share your comments, suggestions, and corrections ahead of publication!

READ, COMMENT AND FIND OUT MORE HERE!!

LIPID MAPS now included in IOI

We are now listed in Infra Finder from Invest in Open Infrastructure (IOI)! This tool aims to foster discovery, adoption, and investment for open infrastructure services, and LIPID MAPS is now included.

[You can explore Infra Finder and find our entry here](#)

Did you know you can see any of our updates via the community tab on our homepage and follow via the RSS feed for regular notifications... Or click the links below...

Upcoming Conferences and Events

***** *Featured Event* *****

**The LIPID MAPS Training School 2026 is live online this week,
if you registered don't forget to join us!**

You can now find all the upcoming lipidomic events on the Events Calendar on our webpage

**Add your event by contacting us directly*

Joint 5th International Lipidomics Society (ILS) Conference & Australian Lipid Meeting 7 (ALM7)

This joint event will showcase the latest advances in lipidomics, lipid biology, and cutting-edge technologies. Expect an inspiring program of keynote talks, oral and poster sessions, and dynamic networking opportunities — all designed to spark new ideas and foster interdisciplinary collaboration.

Registration Link: <https://lipidomicsociety.org/events/ils-2026/>

Event Details

Date: Oct 18 – 21, 2026

Venue: Perth, Aus

MetaboHUB 2026 - Hands-On Metabolomics: From Bench to Data

Want to integrate metabolomics into your research or analytical projects, but don't know where to start? Whether your focus is on agrosociences, nutrition, human health, environmental science, biotechnology, or animal health, this training designed by MetaboHUB is for you!

Registration Link: <https://www.metabohub.fr/training-weeks-by-metabohub.html>

Event Details

Date: Nov 23 – 27

Venue: INSA Toulouse

Singapore Bioscience Symposium (SBS) 2026

The Singapore Bioscience Symposium (SBS) 2026, hosted by NTU's School of Biological Sciences and co-organized with the Society for Cell Biology Singapore (SCBS), focuses on Structural and Cell Biology. The programme brings together leading researchers to explore how structural insights and cellular organization advance our understanding of biological systems from molecular architecture to cellular function.

Registration link: <https://www.ntu.edu.sg/sbs/symposium/sbs-2026>

Event Details

Date: Dec 7- 9, 2026

Venue: NTU Singapore

3rd ASMS Winter Conference

This conference will bring together leading experts to showcase cutting-edge technologies, methodologies, and applications, fostering collaboration and accelerating discoveries in biology, medicine, environmental science, and pharmaceutical research.

Registration link: <https://www.asms.org/conferences/winter-conference/winter-conference-homepage>

Event Details

Date: Jan 28 – 31, 2027

Venue: Santa Fe, NM

FEBS - Advanced lipidomics technologies to study lipid biology

SAVE THE DATE - A new Combined Practical and Lecture Course. The five-day programme will combine expert lectures, hands-on laboratory training, Q&A sessions and networking, equipping researchers with advanced skills in modern lipidomics workflows, data analysis and biological interpretation.

Announcement here : <https://network.febs.org/posts/new-course-on-advanced-lipidomics-technologies>

Event Details

Date: May 24 -28, 2027

Venue: TU Dresden
